Bob Eckland ran with the group for 20:00 then doubled back as he said he needed to prepare for a chess tournament. This was a runner up to Eddie Z's comment he finished the run that "The rabbit died..."

Rich Holmboe--long time MGP participant--is holding a run of similar ilk in Corvallis in early April and would like to inform as many as might be interested of it's particulars. As we do not have a formal mailing list (none in the works either), and TKTBWOS, I'm asking him to mail these results of the Winter run and enclose his flyer with it.

These results will reach you early, but don't forget the Summer run and picnic at Wallace park Noon, Saturday, June 21, the **l o n g e s t** day of the year.

Please post the following table conspicuously, as the highlights of your running and social calendar .

\*\* Bob and Bob ran on June 14th. Gregory must not have adjusted their calendars yet!?

Thanks to JoAnn for playing the role of race dictator as I was roughing it at a continuing ed course at the Fairmont Hotel in San Francisco. SF is a great town, but I would have rather been here at the run and picnic with you.

This fall equinox run will be at 5:30 P.M. on Monday, Sept. 22, 1986, beginning at Wallace Park as usual. (Actual equinox time will be at 11:59 p.m. but it's a little dark then--someone might miss the turnoff at Dogwood).

For those planning ahead, the Winter Solstice run will be on Dec. 20, 1986, Saturday at 12:00 noon.

The Mud Grand Prix annual potluck for participants, friends and families will follow this--the winter solstice run. Since the run starts at 12:00 Noon and should be over sometime between 12:40 and 1:15, I estimate that the potluck will probably get going about 2:00 p.m.. Carol Bradford has graciously offered her house, so bring a dish or a drink to 5711 N.E. Klickitat and enjoy some running company.

The next Mud Grand Prix will be Friday \*March 20, 1987 at 5:30 p.m.

\*There is a possibility that someone might think that Spring starts on March 21, but that is only in England, in a town called GMT. Since we will be running the race "yesterday" in relation to England, and since "tomorrow" isn't here yet when we will be running the race on a spring evening(the evening just before the second day of spring here) the race time will be at 5:30 p.m. for those who work, and also for those who don't.

The following table may help:

Season	Date	Day	GMT	EST	PST	Race_time
Vernal Equinox	Mar 20	Fri	03:52 (Mar 21)	22:52(10:52 pm)	19:52( 7:52 pm)	5:30 pm
Summer Solstice	June 21	Sun	22:11	17:11( 5:11 pm)	14:11( 2:11 pm)	2:11 pm
Autumnal Equinox	Sept 23	Wed	13:45	08:45(8:45 am)	05:45( 5:45 am)	5:30 pm
Winter Solstice	Dec 22	Tue	09:46	04:46( 4:46 am)	01:46( 1:46 am)	consensus needed
